Dear authors,

Springer has sent me a link to the proof of your chapters for each of us to have a look. There may be some queries for each chapter. I would like each of you to have a look at your chapter and answer the queries and see if there are no typos etc. in your proof. At this stage there can be no substantial addition of the content, only proofreading for typographical errors only.

The link to the whole book is here - <http://eproofing.springer.com/books/index.php?token=vj2LBaMof6kZ2ELLpy4W--YtHHPqSeu>

So please look at your own chapter and get back to me on **March 2** at the latest so that I can collect everything and return them to the publisher on the next day, which is their deadline. Thanks a lot indeed for your kind cooperation.

All the Best  
Soraj

Dear **Dr./Prof. Soraj Hongladarom**,

I am happy to inform you on behalf of Springer that the page proofs of your book "**Food Security and Food Safety for the Twenty-first Century**" are now available for your review.

Please note that any changes at this stage are limited to typographical errors and serious errors regarding content. If the figures were converted to black and white, please check that their quality is satisfactory and that all references to color in any text discussing the figures are changed accordingly. If you feel that the quality of some figures is inadequate, please send us an improved grayscale figure.

We have introduced a new online correction system, which allows you to directly incorporate your corrections, eliminating any misunderstandings as a result of misinterpreted handwritten corrections, and thus ensuring that publication of the book is not delayed as a result of additional correction procedures.

Please click on the link below or copy and paste it into your browser window:

<http://eproofing.springer.com/books/index.php?token=vj2LBaMof6kZ2ELLpy4W--YtHHPqSeu>

Please return the corrected proofs by **03 March 2015**.

If you have any questions, please feel free to contact me.

We welcome your comments and suggestions. Your feedback helps us to improve the system.

Cordially,

**R.Rathika**
